

【特別研修・在外研究成果報告書】

研究者	所属・職位	氏名
	Faculty of Liberal Arts	Yacob Khojasteh
研究課題	Supply Chain Management	
研究期間	2021年 10月 12日 ～ 2022年 8月 22日 ( 315日間)	
主な研究機関 又は場所	Ryerson University, Toronto, Canada	
研究成果の概要		
<p>The main part of the research was editing a book on supply chain risk management. We called for chapters, selected suitable papers, and reviewed them (some were revised more than three times). The book manuscript was finalized and submitted to the publisher (Springer) in April 2022, and after few proofreadings, the final version was submitted to the publisher in July 2022. The book entitled “Supply Chain Risk Mitigation: Strategies, Methods and Applications” is currently in press and is going to be released to market in November 2022.</p> <p>I also worked on a study on product recall problems and participated in the International Joint Conference on Industrial Engineering and Operations Management (IJCIEOM) from July 17-20 held at Anáhuac Mexico University, in Mexico City. I presented the work entitled “Study on Product Recall Problems from Customers’ Viewpoint” at the conference, and I am currently finalizing it to submit it to a journal for a possible publication.</p> <p>Moreover, I worked on a research study addressing warehouse management, which is still ongoing.</p>
