**DP1**  
In-depth understanding of the approaches and concepts used in Microeconomics and Macroeconomics, which constitute the core of economic theory; and the ability to explain the concepts in their own words.

**DP2**  
The ability to develop models or conceptual frameworks based on knowledge of economics, in order to explain genuine issues in modern society and suggest viable approaches to solving the problems.

**DP3**  
The ability to utilize economic knowledge and skills to perform statistical data analysis.

**DP4**  
High-level communication and leadership skills that enable an appropriate contribution to be made to the global community.

**DP5**  
High-level expertise that enable each student to become a leader in modern society in accordance with their own individual qualities and interests.

**DP6**  
The ability to learn the basic knowledge on "Sustainable Futures," to understand its importance, and to take action towards resolving challenges to the sustainable futures by drawing upon their academic discipline as well as from the other five disciplines in the SPSF course they learn.

**DP7**  
The ability to understand and apply the interdisciplinary perspectives and methodologies, learned in their academic discipline and in the other five disciplines of the SPSF course, when addressing issues and presenting their ideas.
