

Robert Gilhooly
Center for Global Education and Discovery,
Sophia University
Academic Degrees: M.A. (Griffith University).
B.A. Hons (Lancaster University)

Areas of Interests and Professional Experience: His main areas of interest are social and environment issues and Japanese society and culture. He has written widely about such issues as suicide, domestic violence and animal rights, while his 2017 book “Yoshida’s Dilemma” looks at the Fukushima nuclear disaster and Japan’s nuclear energy policy. He was formerly a staff writer at The Japan Times and he has contributed articles and photography to publications around the globe, including the Los Angeles Times, The London Times, The Daily Telegraph, The Guardian, the South China Morning Post, The Australian and New Scientist magazine. He is co-founder of a media cooperative, and currently works as a coordinator for two global NGOs in war- and disaster-affected countries such as Ukraine and Turkiye. He is the recipient of two international photojournalism awards.
