Other comments

1) Attendance is very important. Language learning is a cumulative process; your success depends on how much you study daily. Missing even one class will affect your subsequent study, especially in this short and intensive summer course. You are expected to participate actively in class.

2) Be punctual because you will disturb the class if you come in late. Also, do not leave in the middle of the class unless you are sick. This will distract your instructor and classmates. If you miss a part of a class, your attendance & class performance score of the day will be negatively affected.

3) There will be no make-up for any quiz. But the lowest score will be dropped at the end of the course.

4) Absolutely no cheating! If you cheat on a quiz, you will get a grade of zero for that quiz. If you cheat the second time, you will receive zero for the entire quiz category and we will notify your home university about your dishonesty.

5) You will have three oral tests during the course. You must take all oral tests at the scheduled time. There will be no make-ups, and a zero will be recorded for any oral test which has been missed unless your instructor is informed of a legitimate reason. You may be requested to submit written proof of your excuse (e.g., a doctor's note, etc.). In case of an emergency, contact your instructor or the administrative office immediately.

7) Homework assignments will be given almost every day. Listen to audio files and practice as many times as you want. Then, record your speaking and submit the audio file. You must submit each assignment before the class on the due date to receive full credit. More details will be discussed in class.
